WATER JOURNAL MISSION STATEMENT

'To provide a journal that interests and informs on water matters, Australian and international, covering technological, environmental, economic and social aspects, and to provide a repository of useful refereed papers.'

PUBLISH DATES *Water Journal* is published eight times per year: March, April, May, July, August, September, November and December.

EDITORIAL BOARD

Chair: Frank R Bishop; Dr Bruce Anderson, AECOM; Dr Terry Anderson, Consultant SEWL; Michael Chapman, GHD; Robert Ford, Central Highlands Water (rtd); Antony Gibson, Orica Watercare; Dr Brian Labza, Dept Health WA; Dr Robbert van Oorschot, GHD; John Poon, CH2M Hill; David Power, BECA Consultants; Dr Ashok Sharma, CSIRO.

EDITORIAL SUBMISSIONS & CALL FOR PAPERS

Water Journal welcomes editorial submissions for technical and topical articles, news, opinion pieces, business information and letters to the editor. Acceptance of editorial submissions is at the discretion of the Editor and Editorial Board.

• **Technical Papers and Technical Features** Clare Porter, Technical Editor, *Water Journal* – cporter@awa.asn.au AND journal@awa.asn.au.

Papers 3,000–4,000 words and graphics; or topical articles of up to 2,000 words relating to all areas of the water cycle and water business. Submissions are tabled at monthly editorial board meetings and where appropriate are assigned referees. Referee comments will be forwarded to the principal author for further action. Authors should be mindful that *Water Journal* is published in a three-column 'magazine' format rather than the full-page format of Word documents. Graphics should be set up so that they will still be clearly legible when reduced to two-column size (about 12cm wide). Tables and figures should be numbered with the appropriate reference in the text (eg, see Figure 1), not just placed in the text with a position reference (eg, see below), as they may end up anywhere on the page when typeset.

- **General Feature Articles, Industry News, Opinion Pieces and Media Releases** Anne Lawton, Managing Editor, *Water Journal* – journal@awa.asn.au
- **Water Business and Product News** Lynne Bartlett, National Relationship Manager, AWA – lbartlett@awa.asn.au

UPCOMING TOPICS

JULY 2012 – Selected Ozwater'12 Papers; UV Disinfection, Aquifer Recharge

AUGUST 2012 – Governance, Biosolids/Wastewater Source Management, Singapore IWW Report, Selected IWA Leading Edge Technology Papers

SEPTEMBER 2012 – Membrane Technology, Enviro 12 Selected Papers, Agricultural Use, Irrigation Advances, Coal Seam Gas Water

ADVERTISING Advertisements are included as an information service to readers and are reviewed before publication to ensure relevance to the water sector and the objectives of the AWA. Contact Lynne Bartlett, National Relationship Manager, AWA – lbartlett@awa.asn.au Tel: +61 2 9467 8408 or 0428 261 496.

PUBLISHED BY Australian Water Association (AWA) Publications, Level 6, 655 Pacific Hwy, PO Box 222, St Leonards NSW 1590; Tel: +61 2 9436 0055 or 1300 361 426, Fax: +61 2 9436 0155, Email: journal@awa.asn.au, Web: www.awa.asn.au

Optimised coagulation with minimised polymer dosing can reduce NDMA at some plants. See page 76.

A typical dam and gas extraction facility. See page 71.

TECHNICAL FEATURES (INDICATES THE PAPER HAS BEEN REFEREED)

PIPELINE CLEANING & MAINTENANCE

-  **CSIRO Research Into Computer-Aided Image Interpretation**
A review of current status for automatic recognition of pipe defects from a robot J Mashford, D Marney & S Burn **58**
-  **Degradation Of Epoxy Pipe Coatings Due To Diffusion Of Chemicals**
Failure of epoxy coating can be due to a number of means DI Verrelli **63**
-  **Buried Pipelines – We Can't Ignore Them**
A review of current technology AL Ratliff **68**

WATER IN MINING

-  **Treatment of Coal Seam Methane Water in Talinga, Dalby and Moranbah**
Relocatable RO plants for the coal seam gas industry A Davey, R Howick & R Armbruster **71**

CONTAMINANTS OF CONCERN

-  **NDMA Attracting International Attention**
The latest news on nitrosamines G Newcombe, J Morran & J Culbert **76**

WATER RECYCLING

- Household Behaviour And Motivations For Greywater Use**
Implications for policy and future research M Sinclair, J O'Toole, K Leder & M Malawaraarachchi **83**

MEMBRANE PRE-TREATMENT

- Pre-Treatment For Membrane Plants**
A history and guidelines S Reber & C Frommann **88**

WATER BUSINESS

- New Products and Business Information** **91**
- Advertisers' Index** **96**

OUR COVER

Kids play on the Mannum-Adelaide Pipeline in Mannum, South Australia, the first major pipeline built from the River Murray to serve the water needs of Adelaide. See pages 58–70 for a selection of technical papers on Pipeline Cleaning & Maintenance. Photo by Amy Toensing.
